

THE OHIO STATE UNIVERSITY
College of Pharmacy

The Division of **Pharmaceutics** invites applications for a tenure-track **professor** position, to serve as the **Division Chair**. Applicants with research interests in pharmacokinetics-pharmacodynamics and drug metabolism are preferred. The chair is expected to have an externally funded research program, to train graduate and postdoctoral students, and to actively participate in teaching at the undergraduate, professional, and graduate levels. The chair reports to the dean of the College of Pharmacy and is a member of the college executive committee. The division consists of nine faculty and 50 Ph.D. and postdoctoral students. Research emphases are in pharmacokinetics-pharmacodynamics, molecular pharmacology, and targeted drug delivery. The division provides leadership and resources in mass spectrometry, pharmacogenomics, bioinformatics and computational biology, and has clinical collaborations within the comprehensive cancer center. More information is at <http://www.pharmacy.ohio-state.edu/programs/ceut/>.

The Ohio State University maintains comprehensive teaching and research programs, and offers an outstanding environment for basic and clinical research. The College of Pharmacy has state-of-art research equipment and library facilities, and is part of a medical-center complex that includes a cancer hospital and research institute, a comprehensive cancer center, a heart and lung research institute, a proteomics laboratory, and a retrovirus center. Shared university facilities include a super-computer center, genomics facilities, and a campus chemical-instrumentation center.

A letter of application with a curriculum vitae, the names and addresses of three references, and a statement of research interests should be sent to the following address; evaluation of applications will begin **November 1**; applications will be accepted until the position is filled.
